## FFWM Photo Cluster

### **FFWM is starting a Photo Cluster group!**

What is a Photo Cluster? It is a group of FFI members who want to learn more about photography and have fun doing it.

**MOBILE PHONES**

**POINT AND  
SHOOT CAMERAS**

**DIGITAL SLR  
CAMERAS/INTER-  
CHANGEABLE  
LENS CAMERAS**

The following is a good explanation from Rozlynn Worrall of the Sacramento club. Their photo cluster has been going for 2-3 years now.

#### INTRODUCTION

It is often said that a “picture is worth a thousand words.” Storytelling through visuals is appealing to all age groups and is an essential element of Friendship Force International and local clubs. We need to tell our story everyday and everywhere through powerful photos and compelling words. It is our privilege to travel and to build peace through friendship; it is our responsibility to educate others about how building personal relationships break down the barriers that separate us as people and contributes to understanding and peace.

Point and shoot, iPhone, iPad, Android, or DSLR cameras all have the capability of taking excellent photos if the person behind the lens has the know-how to operate the camera, compose a photo that evokes an emotional response, and performs some simple editing.

But we won't stop there! For those who want to continue to hone their skills in photography, editing, and presentation, club clusters will be encouraged to stay dynamic, fold in newcomers, and lean on experienced members to organize, connect, inspire. It's important not only to take those excellent photos but to also share them purposefully with individuals and groups who will fund, partner, or join the mission.,

**If you have any interest in joining the FFWM Photo Cluster, email Dave Hargreave at [david.hargreave@wmich.edu](mailto:david.hargreave@wmich.edu). Or, when you receive an email inviting you to a photo shoot opportunity you can RSVP. Activity in this group will commence *after the first of the year*.**
